

Health & Work Support e-Bulletin – November 2018

It has been a busy few months for the Health & Work Support team with lots to update you on!

Progress since go-live

Local teams in Fife and Dundee have been increasing awareness of the service by distributing marketing materials in health/community centres, libraries and Jobcentres. The teams have been out speaking to colleagues such as GPs and employers. Our Jobcentre Plus partners have been supporting people to use the service. Word has been getting out with a steady stream of referrals coming into the service. However we need your help to make sure those who need the service most are able to access it!

Our analytical team have developed a data dashboard and the evaluation will go out for procurement over the coming weeks.

We need your help! Marketing the new service

To access the service, either dial **0800 019 2211** (freephone) or access the website www.healthandworksupport.scot. Web chat will soon be available on the website. Watch this space!

Marketing materials are available, including posters, leaflets and promo cards. Please get in touch with your local lead if you require any materials, contact details below.

Improvement Programmes

The first workshops of the Improvement Programmes were held in Fife and Dundee at the start of October.

Great progress was made with every team leaving with a clear aim for their improvement project. It was a great opportunity for teams working across the service to come together!
